

Some welcomes don't need words.

Before you step inside, home is already waiting.

Entry is part of everyday life.

Arrival begins before the door opens. Light, access and awareness come together without making the entrance feel technical.

THE PROBLEM

Dark approaches and separate door devices make arrival feel less certain.

HOW BETTER HOME RESPONDS

The entrance prepares light, access and awareness while every important action remains deliberate.

WHAT YOU EXPERIENCE

- 01

A WARM APPROACH

Outdoor movement can prepare the way home.
- 02

SMART ACCESS

The door is ready when you choose to unlock it.
- 03

DOOR AWARENESS

Know the state of the main entry.
- 04

VIDEO DOORBELL

See who is waiting at the door.
- 05

GARAGE CONTROL

Open or close deliberately - never automatically.

INCLUDED IN THIS PRODUCT

APPROACH	INSIDE	ACCESS	LIGHT	GARAGE
Outdoor movement sensing Entry lighting response	Indoor presence sensing Arrival awareness	1 smart lock 1 video doorbell	Up to 6 lighting circuits 1 room switch	1 deliberate door relay Setup + handover

EXPAND FURTHER

AWAY	CCTV	PROTECTION BONUS
Give departure and return one clear rhythm.	Add professional local visibility.	Visible response when Entry, Away and CCTV meet.

AVAILABLE ADD-ONS

Bring the same deliberate access to another compatible entry.	See and answer another entrance.	Bring deliberate garage control into the same Entry experience.

INSTALLATION ASSUMPTIONS

Compatible door, lock preparation, lighting circuits, Wi-Fi and garage dry contact required. Wired intercom and special door work are quoted.

One space. Many ways to live.

The atmosphere follows your life.

Living isn't just another room.

It is where families reconnect, conversations become memories, and ordinary evenings matter most.

THE PROBLEM

One room holds conversation, television, reading and quiet evenings. Ordinary controls treat every moment the same.

HOW BETTER HOME RESPONDS

The room welcomes you, changes with the moment and settles when everyone leaves. Movie, Reading and Relax each feel distinct.

WHAT YOU EXPERIENCE

- 01

A QUIET WELCOME

Light arrives with you and settles when the room is empty.
- 02

MOVIE NIGHT

One touch lets the whole space become quieter.
- 03

READING + RELAX

Clearer light to read. Softer light to unwind.
- 04

EVERYDAY COMFORT

A compatible split system follows the room scene.
- 05

NATURAL CONTROL

Call for the scene without interrupting the moment.

INCLUDED IN THIS PRODUCT

ROOM LIGHT	ROOM RESPONSE	PRIVACY	WARMTH	EVERYDAY USE
Up to 6 lighting circuits 1 dimmable lighting circuit	Presence sensing Compatible AC + TV response	1 automated straight curtain Track up to 3m	1 dimmable warm light detail Up to 3m	Voice access Scenes, setup + handover

EXPAND FURTHER

MOOD LIGHTING	CLIMATE	HEALTHY AIR
Give ordinary nights more depth and atmosphere.	Let whole-home comfort follow the rhythm of life.	Help the room quietly restore its freshness.

AVAILABLE ADD-ONS

ADDITIONAL AUTOMATED CURTAIN	ADDITIONAL WARM AMBIENT ZONE	ADDITIONAL COMPATIBLE SPLIT-SYSTEM CONTROL
Expand the same calm atmosphere to another window.	Carry the same warm atmosphere into another detail.	Let another compatible split system follow the room scene.

INSTALLATION ASSUMPTIONS

Existing compatible split AC and TV only. Double curtains require two tracks. Tracks over 3m, curved tracks, unusual access and non-standard electrical work are quoted separately.

The day begins quietly.

Light where you need it. Calm when you don't.

Kitchen is part of everyday life.

From the first coffee to the final glass of water, the kitchen changes with the hour while work light remains clear and useful.

THE PROBLEM

Worktops can be poorly lit, while strong general light feels harsh early or late.

HOW BETTER HOME RESPONDS

The kitchen shifts between useful task light, a quiet night scene and simple control of a compatible appliance.

WHAT YOU EXPERIENCE

- 01

MORNING LIGHT

Begin the day without waking the whole room.
- 02

COOKING SCENE

Clearer light where preparation happens.
- 03

NIGHT PATH

Move through the kitchen with less glare.
- 04

ROOM RESPONSE

Light follows use and settles when empty.
- 05

USEFUL INFORMATION

Keep everyday control and information close.

INCLUDED IN THIS PRODUCT

EXPAND FURTHER

MOOD LIGHTING	HEALTHY AIR	ADD-ONS
Give evening meals more depth and atmosphere.	Help the kitchen recover freshness after use.	Extend the same kitchen without creating another room.

AVAILABLE ADD-ONS

ADDITIONAL WARM AMBIENT ZONE	ADDITIONAL SMART DISPLAY	ADDITIONAL SMART APPLIANCE OUTLET
Carry the same warm atmosphere into another detail.	Keep information and control visible from another point.	Bring one more compatible appliance into the kitchen routine.

INSTALLATION ASSUMPTIONS

Suitable cabinetry, mounting surface, compatible lighting circuit and safe plug-in appliance required. Joinery changes and appliance supply are excluded.

The world can wait until morning.

Designed around deeper rest and gentler mornings.

Bedroom is part of everyday life.

The bedroom settles without a sequence of switches and wakes without demanding attention.

EVERYDAY MOMENTS

THE PROBLEM

Harsh night light and repeated bedside switching interrupt the room's natural rhythm.

HOW BETTER HOME RESPONDS

Warm low light, privacy and two identical bedside controls make night and morning feel calmer.

WHAT YOU EXPERIENCE

- 01

GOOD NIGHT

One scene lets the room settle.
- 02

NIGHT PATH

Low warm light helps you move without fully waking.
- 03

GENTLE WAKE

Light and curtain can welcome the morning.
- 04

QUIET PRIVACY

The curtain closes without another trip across the room.
- 05

RESTFUL AUDIO

Music or sound can become part of the routine.

INCLUDED IN THIS PRODUCT

ROOM LIGHT	RESPONSE	PRIVACY	BEDSIDE	REST
Up to 6 lighting circuits 1 dimmable circuit	Presence sensing Night and morning scenes	1 automated straight curtain Track up to 3m	2 matching scene remotes Four scenes each	Warm night light + speaker Setup + handover

EXPAND FURTHER

MOOD LIGHTING	CLIMATE	HEALTHY AIR
Use colour as atmosphere - or a quiet sense of the hour.	Let whole-home comfort follow sleep and waking.	Help the room restore freshness through the night.

AVAILABLE ADD-ONS

ADDITIONAL AUTOMATED CURTAIN	ADDITIONAL BEDSIDE SCENE REMOTE	ADDITIONAL COMPATIBLE SPLIT-SYSTEM CONTROL
Expand the same calm atmosphere to another window.	Keep the same four scenes within reach from another position.	Let another compatible split system follow the room scene.

INSTALLATION ASSUMPTIONS

Curtain fabric and sheers excluded. Double curtains require two tracks. Tracks over 3m, curved tracks, TV control and unusual access are quoted.

Every day begins and ends in comfort.

Light and ventilation settle into the room's rhythm.

Bathroom is part of everyday life.

Morning warmth, a quieter night path and ventilation that follows use make ordinary routines feel more considered.

EVERYDAY MOMENTS

Light Arrives	A Softer Path	One Clear Mode	The Room Recovers

“Technology should quietly support everyday life.”

BATHROOM COLLECTION

\$2,199

INSTALLED • INCL GST

THE PROBLEM

Harsh night light, forgotten ventilation and separate controls make simple routines feel busy.

HOW BETTER HOME RESPONDS

The room welcomes you softly, supports a deliberate Shower Mode and helps ventilation continue after use.

WHAT YOU EXPERIENCE

01 **WELCOME LIGHT** The room prepares itself when you arrive.

02 **NIGHT PATH** Warm low light avoids unnecessary glare.

03 **SHOWER MODE** One deliberate scene prepares connected comfort.

04 **VENTILATION** An existing fan can continue while the room recovers.

05 **WARM-UP ROUTINE** Compatible existing heat can join the shower scene.

INCLUDED IN THIS PRODUCT

ROOM LIGHT	RESPONSE	NIGHT	VENTILATION	COMFORT
Up to 6 lighting circuits 1 dimmable circuit	Presence sensing Bathroom scenes	1 warm light detail Up to 3m	Control of 1 existing fan Fan body excluded	Shower Mode programming Setup + handover

EXPAND FURTHER

MOOD LIGHTING

Turn bathing into a more atmospheric ritual.

HEALTHY AIR

Help the room recover freshness and humidity.

ADD-ONS

Extend the same bathroom where capability already exists.

AVAILABLE ADD-ONS

ADDITIONAL WARM AMBIENT ZONE

Carry the same warm atmosphere into another detail.

ADDITIONAL ROOM OCCUPANCY SENSOR

Let another area welcome you and settle more naturally.

ADDITIONAL EXHAUST FAN CONTROL

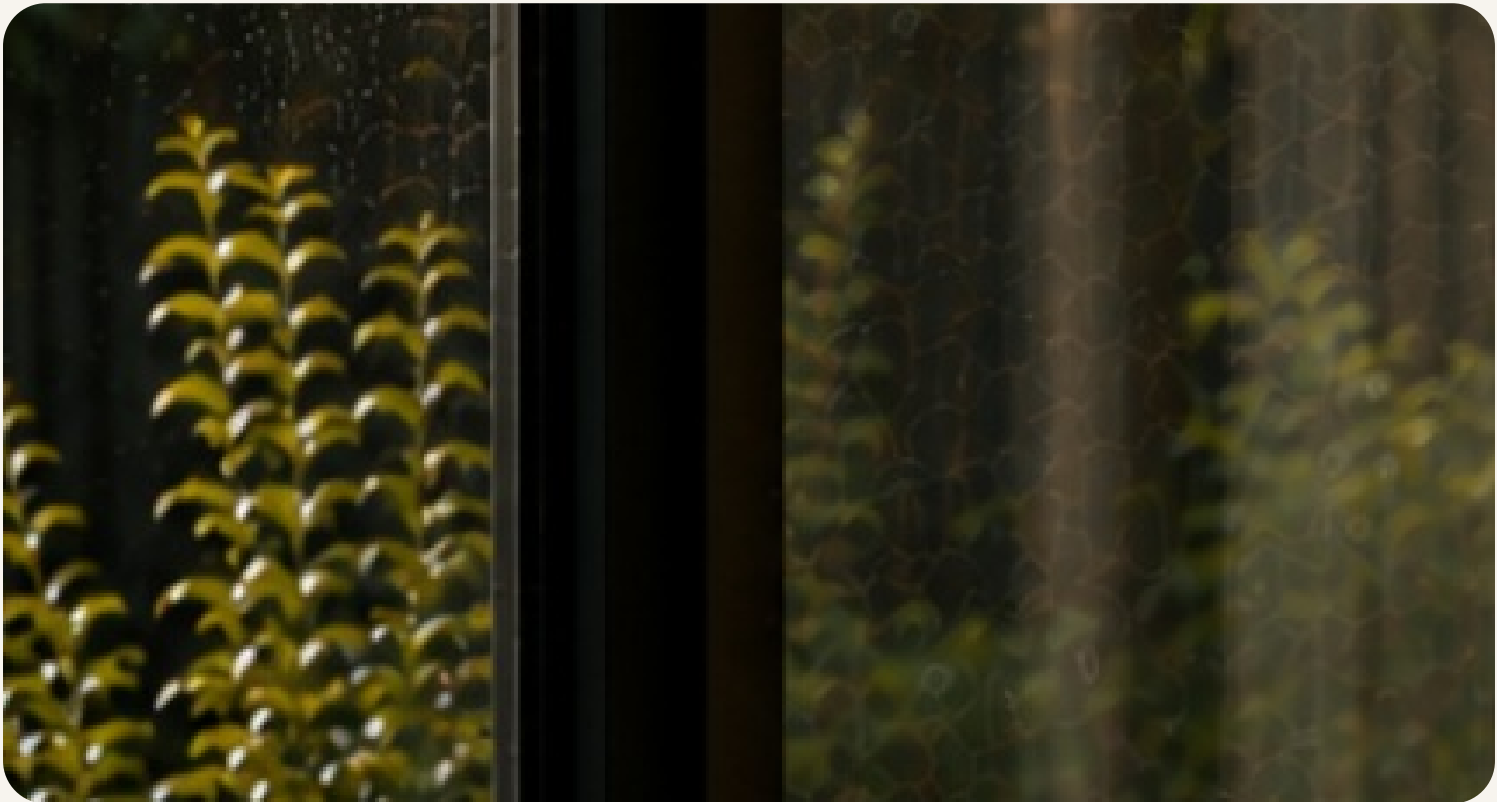

Help another existing fan continue until the room has recovered.

INSTALLATION ASSUMPTIONS

Fan, heater, heat lamp and floor heating equipment are not supplied. Existing equipment and circuits must be compatible and compliant.

Leave knowing home has settled.

A clear departure. A quieter return.

Away is part of everyday life.

Away gives the rooms you already chose one shared departure state, without pretending to be a monitored alarm.

EVERYDAY MOMENTS

01	02	03	04

AWAY COLLECTION

\$1,499

INSTALLED • INCL GST

THE PROBLEM

Lights and connected equipment can remain on, while doors and windows are easily overlooked.

HOW BETTER HOME RESPONDS

One deliberate command settles existing Better Home rooms and reports four selected openings.

WHAT YOU EXPERIENCE

- 01

ONE-TOUCH AWAY

Leave without checking every room separately.
- 02

EXISTING-ROOM SETBACK

Chosen Collections move to their away state.
- 03

OPENING AWARENESS

Four selected doors or windows report their state.
- 04

RETURN ROUTINE

Arrival restores only the response you selected.
- 05

CLEAR BOUNDARY

No new room control and no monitored alarm claim.

INCLUDED IN THIS PRODUCT

WHOLE HOME	AWARENESS	DEPARTURE	RETURN	HANDOVER
Logic across purchased Better Home Collections	4 wireless door or window contacts	One programmed Away state Existing controls only	Programmed arrival response No automatic garage action	Setup, testing and customer training

EXPAND FURTHER

ENTRY	CCTV	PROTECTION BONUS
Make arrival and departure feel connected.	Add professional local visibility.	Visible response when Entry, Away and CCTV meet.

AVAILABLE ADD-ONS

- ADDITIONAL DOOR / WINDOW CONTACT

Extend Away awareness to another selected opening.

INSTALLATION ASSUMPTIONS

Requires Foundation and at least one compatible Collection. Contact positions and Zigbee coverage must be suitable. Not a monitored alarm.
